

**National Republican.****NEWS AND MISCELLANY.**

CHARLES E. TWICHELL, of Bethel, Me., was so heated while working in the hay field a few days ago that he died.

JUDGE HALL, of New York, has decided that a married woman may be declared a bankrupt under the involuntary clause.

The foreign letters sent from the New York post office on Saturday last numbered as follows: British, 12,725; German, 13,187; French, 6,642; Belgium, 142; Nassau, N. P., 930; Aspinwall, &c., 2,592; Nicaragua, 95; China, 1,519; total, 37,380.

The Howland will case is to be tried at a special session of the United States Circuit Court, to begin in Boston on the 26th instant. The evidence taken before the commissioners in this case has been printed, and makes a volume of over a thousand pages.

HAMIL is already in training for the champion rowing match, and Brown has been hard at work at Portland for several days, and appears to be in splendid condition. His professional trainer will probably be Fred Dierst, who performed that office acceptably for him at Pittsburg.

A NEOPOLIS lately gave his idea of faith in the following words: "Dar is a brick wall, and de Lord he stand dere, and say to me, 'Now, I want you to go thro' dat.' I ain't gwine to say, 'Lord, I can't.' I got nuffin to say 'bout it. All I have to do is to butt agin it, and it's de Lord's business to put me in."

SOMEBODY says that there are good reasons why miliments should hold their fluid at seven cents per quart. First, the prolonged drought had had the effect to dry up the feed in the pastures, and secondly the scarcity of water for other purposes makes it necessary to charge high for pure milk.

AMONG other notabilities in Paris is Louis II, King of Bavaria, traveling under the name of Count de Berg. Louis lives in Paris like a simple bourgeois, is very fond of the theatres, and seems to have set himself the task of visiting them all in turn.

The consumption of tobacco in France is increasing with a great rapidity. In 1789 the revenue produced by the sale was 30,000,000, which sum in 1811 had declined to 16,000,000. Since the latter date, however, an uninterrupted improvement has taken place, and in 1865, 175,000,000.

A MEXICAN colonel, who claims to have been present when Maximilian was executed, informs a Texas paper that Maximilian made no speech, and that when he was brought out for execution he seemed more dead than alive, and broke down completely without saying a word. All the contradictory reports of the execution agree in one thing—that Maximilian was killed—which is quite singular, considering the general unreliability of Mexican stories.

In New York, Wednesday morning, as a messenger from one of the Wall street banking houses was passing through Pine street, with a bag of gold upon his shoulder, some thief cut a hole in the bag and ran off, leaving his confederate to gather up the scattered coin. The first thief was captured by the aid of an apple merchant, and the gold was recovered by the assistance of those who witnessed the trick.

A LETTER from St. Joseph, Missouri, 13th inst., to the St. Louis Democrat says: "The particulars have just been received in this city of a terrible tragedy which occurred at Plattsburgh on Friday evening last. It appears that a young man named Charles Jones, recently employed as a clerk in the principal hotel in that place, had been in love with the daughter of the landlord, Miss Mollie Steele. The young lady, however, did not return the attachment. On Friday night last the young lady, in company with a gentleman friend, visited Lake's circus, then exhibiting in that place. Young Jones, fired with jealousy, waylaid the couple on their way home from the circus, and, drawing a revolver, fired at Miss Steele, causing her instant death. Jones instantly placed the revolver to his own head, and, after several ineffectual efforts, lodged a ball in his brain, and at once expired. The unfortunate lady was highly esteemed, and was the daughter of one of the most prominent citizens of the place, while the murderer and self-destructive was equally well known. The tragedy has, in consequence, caused much excitement and general sorrow."

**478 DEPARTMENT OF THE INTERIOR,  
UNITED STATES PATENT OFFICE,  
WASHINGTON, August 1, 1867.**

**On the petition of George W. Livermore, of Cambridge, Mass., for the patent of an improvement in machinery for making barrels, for seven years from the expiration of said patent, which takes place on the 21st day of March, 1864.**

**It is ordered that the said petition be heard at the Patent Office on Monday, the 7th day of October next, at 12 o'clock, m.; and the same are not to be adjourned, except at the same time, if any said party, or his attorney, so desire.**

**Persons opposing the extension are required to file in the Patent Office, at least five days before the day of hearing; all testimony filed by either party, to be used at the said hearing, must be taken and transcribed in writing, and the same, with the rules of the office, will be furnished on application.**

**Depositions and other papers, relied upon as testimony, must be filed in the office twenty days before the day of hearing; all testimony filed, if any, within ten days after filing the testimony.**

**Ordered, also, that this notice be published in the Harvardian and the Intelligencer, Washington, D. C., and in the Journal, Boston, and in the Tribune, New York, for three successive weeks, the first publication to be at least sixty days previous to the day of hearing.**

**T. C. THREACHER,  
Commissioner of Patents.**

**P. S.—Editors of the above papers will please copy, and send their bills to the Patent Office with a paper containing this notice.**

**5100 A DAY.**

We have adopted the plan of putting money in Ceylon Tobacco to induce consumers to use it, knowing that it is only necessary for them to give it a taste, and then to make it a permanent article of use. We have fully satisfied all the merits, and to prevent it from being sold at a loss.

We are making Ceylon from selected of the best old leaves, all leaves devoted exclusively to its manufacture. It is free from drags, and in every respect a pure article.

**FIVE ARTICLES OF CHEWING TOBACCO.**

On Mondays we will place in one paper a \$100 U. S. Note. On Tuesdays, in two papers, \$60 each. On Wednesdays, in three papers, \$40 in each. On Thursdays, in ten papers, \$10 each, and on Saturdays, in fifty papers, \$10 each. We have a large stock of Ceylon Tobacco.

The Sender of these Greenbacks, sending us their name, address, and number of the bills—will be presented with packages of our Tobacco, in proportion to the amount of money found.

This is the only article ever offered over a Hundred Years, and has always maintained a character for honesty and fair dealing, which puts to flight all doubts, if not about itself, as to the genuineness of this enterprise.

The Ceylon Tobacco is made of the best leaves—will be sold at a loss.

**THE CENTURY TOBACCO**

on Mondays we will place in one paper a \$100 U. S. Note. On Tuesdays, in two papers, \$60 each. On Wednesdays, in three papers, \$40 in each. On Thursdays, in ten papers, \$10 each, and on Saturdays, in fifty papers, \$10 each. We have a large stock of Ceylon Tobacco.
